A few fun facts that relate to the moon

We will show you a video where SDA leaders insist, "*there are no signs in the heavens*". But, did you know the moon is visible during daylight hours, 50% of a lunar month? There are indeed **many signs** in the heavens given to man.

After a full moon/"*New Moon*", it is in the daytime sky during its entire waning phase. This incontestable sign in the heavens moves eastward approximately 45 minutes each day and leads man to our Creators first Sabbath each month.

Did you know there is no such thing as a "*blue moon*" in Scripture? A blue moon is the results of two full moons within a single pagan/Roman month, this is not the intended way of creation and helps demonstrate the false Roman calendar.

Have you ever considered planting your garden by the phases of the moon? Native Americans did. Hmm, we will be discussing them in greater detail in upcoming videos.

Did you know Scripture gives specific instructions based on the phase of the moon?

Hello folks, the very first thing we need to do is to express our gratitude to the fine parishioners of the Seventh-day Adventist church. This is a beautiful group of people who are seeking truths and a desire to worship our heavenly father on his seventh day as a memorial to creation. I also was once SDA, I held the position of church treasurer, church clerk, Deacon, to the sound engineer including multiple other tasks. During the time I was SDA I came to know many of the leaders on a personal note, in addition to literally thousands of the parishioners from camp meetings and other events. They are without question, **good people**.

The parishioners who sit in the pews are not being told the truth by their leaders concerning the true seventh day Sabbath of creation. You can see where the leaders of the church have on multiple occasions shall we say, set at the table with the Roman Catholic Church and broke bread.

The author of this website along with multiple others have reached out to the leaders of the SDA church in vain, they refused to budge from the Roman calendars continuous weekly cycle, totally ignoring the creation account along with multiple other text in Scripture for reasons we will discuss later.

In this article we will post a couple of videos where some of the top leaders egg knowledge where they believe the earth will be made new, and in this earth made new they mention on multiple occasions how it will be from one new moon to another, from one month to another shall all flesh gathered together for worship.

They do know !!

In this article, we will examine the claim of the many who have stated, "*I worship on the seventh day Sabbath, as a memorial to creation.*"

In order to do this, we must first examine and understand the creation account from a Scriptural perspective to establish exactly "what took place at creation."

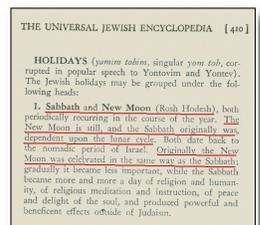

We must understand that which is fabricated, differentiate the differences between that, and what has been created. Then and only then will we be able to know if I "*worship as a memorial to creation,*" or if I am following the traditions of man, and establishing my day of worship based on the creation/cycles of the Gregorian Calendar.

The author of this article understands the intended statement "as a memorial to creation," to be that the desire of those who make this statement, such as the Seventh-day Adventist, are suggesting that they are worshipping on a calendar according to that at the time of creation. **Nothing could be further from the truth.**

In addition to the calendars of the world changing multiple times under the Roman Empire, and prior to them other multiple ancient civilizations, there have been lapses in time such as in the days of Hezekiah and others that have been recorded throughout history. The Seventh-day Adventist claim that they can trace the *seventh day cycle* all the way back to creation. Again, for the reasons mentioned above and other reasons, **that is an impossible task.**

Our Heavenly Father when he created this earth placed in the heavens the most natural and perfect timepiece/calendar man could have ever received. I promise you this, it is without question the ones who continue to attempt to destroy this world today have done everything in their power to take the eyes off from the creator of this earth, and place themselves in a position to be a god on this earth. This truth holds fast based on the many statements the Roman church has made over the decades/centuries and placing themselves upon a pedestal and claiming to be the authoritative God on this earth, and that no salvation is possible except through the Roman church alone. It is clear to see that the Seventh-day Adventist follow the Gregorian calendar as derived by the Roman Catholic Church, this is the same church that claims to be God on this earth and has the right to **abrogate** both **times** and **laws**. Now if I was a member of the SDA church and I knew the Roman Catholic Church believe they themselves could manage/change both times and laws, I would certainly think twice about adhering to a calendar of any type the Roman church may have devised.

Today, the Seventh-day Adventist (SDA) worship every seventh day according to the Gregorian calendar. This means they use the Gregorian calendar as their datum line for establishing their seventh day. SDA make the claim that the Jews worshiped every seventh day, and that the Jewish Sabbath has been an unbroken cycle of seven days from creation, but this is not the truth. The Jews, who SDA believe were the true Israelites, without question kept their years, months and days according to the lunar-solar cycle of the heavens for centuries, this is proven throughout Scripture.

Today the Seventh-day Adventist church misses the mark completely in observing their seventh day Sabbath for multiple reasons, IF, there had been a continuous weekly cycle from the days of creation, this cycle as mentioned before has been broken multiple times.

These good people are suggesting they desire to celebrate creation every "*seventh day.*" However, we must

understand in order to worship on *"the seventh day Sabbath, as a memorial to creation"* it is essential for us to understand His seventh day is derived from the calendar of creation, and of course we know without question the calendar established at creation was based on the lunar and solar cycles of the heavens. I need to know for sure the seventh day I worship on, is indeed derived from a count Scripture is referring too, and **not** a count from a man-made calendar that calls its seventh day, a "Saturday." I do not believe for one minute that the creator of these heavens and earth would have put His calendar and synchronization with that of the Gregorian calendar. However, I know the natural calendar of the heavens is a perfect calendar. Seventh-day Adventist leaders will tell you their seven day-cycle is not associated with the continuous cycle week of Rome, it just happens to be in harmony, but NOT associated with the Roman calendar. When the Roman calendar was put into place, the Julian calendar was disharmonious by 10 days and it was the Gregorian calendar that was forced to put itself back into synchronization with the natural calendar of the heavens. Now if that does not demonstrate which came first and which is the greater of the two calendars, I do not know what else there is to say.

It is the intent of this video to demonstrate to those who attend church on a "Saturday," yet make the claim, *"I worship on the seventh day Sabbath, as a memorial to creation,"* are instead, worshipping on a calendar formulated by the hands of very same system we are warned against in Daniel 7:25. We will discover from Scripture, the pagan named seventh day "Saturday" has absolutely nothing to do with *"a memorial to creation."*

Genesis 1:14

The "**lights**" in the heavens were created for "*Days and Years*"

Click on image(s) to enlarge

Lets get started by illustrating Psalms 19:1 where it states, "*The heavens declare the glory of God; and the firmament sheweth His handywork.*"

It is vitally essential, if we're going to make the statement, "we worship on the seventh day," one must understand that a statement is being made that dictates we are counting **from** a specific point in time, and it is that specific point in time we are counting **from** dictates **who**, or **what**, we are giving our worship to.

This point is vitally important and cannot be understated.

- If we are counting to a seventh day Sabbath according to the criteria established in Genesis 1:14, we truly will be worshipping on the "seventh day," as a memorial to creation. This will be the same **Sabbath** mentioned in Exodus 20:8,10, and the same **seventh day** spoken of in verse 10.

Otherwise

- If we are counting to a seventh day by **any** means *other than* the creation account prescribed by Genesis 1:14, where we are given the lights in the heavens for our days and years, it is impossible for us to say, "I worship on the seventh day as a memorial to creation."

I believe we can all agree on points 1 and 2 above.

If we desire to worship according to the creation account, and as a memorial to creation, shouldn't "**creation**" itself be an intricate part of the decision that guides us to that seventh day as a memorial?

[Return to top of page](#)

Scripture Verses Supporting This Claim

Psalms 19:1 states, "The heavens declare the glory of God; and the firmament sheweth His handywork."

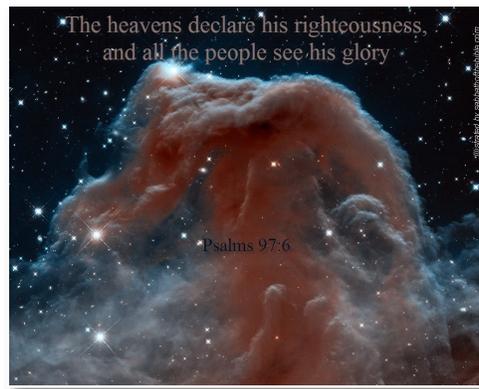

Let us look at Genesis 1:14 as it is clearly proclaiming the creation account when it tells us,

"And God said, Let there be lights in the firmament of the heaven to divide the day from the night; and let them be for signs, and for seasons, and for days, and years."

Now we know from these two verses alone,

- The firmament's are in the heavens,
- It is the heavens that declare the glory of Yahuah,
- Moreover, it is the "*lights*" in the heavens that give us our "days and years."
- Specifically, it is our Creator, who has placed the lights in the heavens in a *perfectly orchestrated* motion giving us His
 - **Days**
 - **Years**

Folks, did you know "*days*," and "*years*," are both elements of "**time**?" In addition, isn't this exactly the question we are asking in order to know what it is we are to count our "*seventh day Sabbaths*" **from**?

Let us think about this for a minute. Exodus 12:2 tells Moses this is the beginning of a month, and that same month is the beginning of a year. What do you suppose Yahuah was showing Moses as they stood there looking over the landscape? Do you suppose they may have been observing a fabricated calendar of any type? Alternatively, perhaps it was in the early morning hours and they were facing west immediately after a full moon had occurred. While the sun rose in the East, the western horizon may very well have been demonstrating a full moon settling down on the western horizon. This is exactly the way we follow the heavenly calendar in order to begin our months yet this day.

Please allow this to sink in for a moment, we have just established from the Scriptural creation account, it is the "*lights in the heavens*," that gives us **both**, our "*days and years*."

It is with these two building blocks, a day, and a year, we are able to build the balance of each element of time given us in, and used all throughout Scripture.

- It is from a day, we are able to derive the "seven day Sabbath" that which this entire website is dedicated to.
- It is from the week, we are able to derive a month.
- It is from a month, we are able to derive our years.

Many would love to chime in here and declare, "We are not given a "month" in the creation account, nor are we given a week. Remember Scriptures principle, here a little, there a little, line upon line, precept upon precept. We will cover this more in a moment.

What are the "lights" Scripture speaks of?

Genesis 1:16-18, And God made **two great lights**; the *greater light to rule the day, and the lesser light to rule the night*: he made the stars also. 17 And God set them in the firmament of the heaven to give light upon the earth, 18 And to rule over the day and over the night, and to divide the light from the darkness: and God saw that it was good.

It is the greater light we call our sun. It is the lesser light we call the moon.

Many will understand this, yet take it at face value and fail to pursue it any further. I need to remind each of you of the extreme importance of this topic. The reason we are discussing this is because by the changing of time as forewarned in Daniel 7:25, worship has been taken **from** the One who has created the heavens in the first place, today using a calendar devised by Rome, yet claiming to "worship on a seventh day Sabbath as a memorial to creation." Are you beginning to understand the complete contra diction between the calendar of creation and the calendar of Rome? This topic is important beyond comprehension.

Psalms 19:2 goes on to tell us:

"Day unto day uttereth speech, and night unto night sheweth knowledge."

I ask you to answer honestly,

- Is it a *Roman calendar* with its pagan named days, that which is not even capable of hanging on the wall of a house without the assistance of a ten-cent nail that give us a "*knowledge*," of a Creator, declaring, and giving glory to Yahuah?

Or,

- Is it created? Genesis 1:14 describes a *perfectly orchestrated luminaries* we call the sun, moon, and stars that give us a "*knowledge*," of a Creator, declaring the glory of Yahuah?

Job 26:7, He stretcheth out the north over the empty place, and *hangeth the earth upon nothing*.

Our Creator gave us our "*days*" and a "*years*."

The sun can only give us our days. In John 11:9 Yahushua answered, "**Are there not twelve hours in the day?**"

The year is perfectly divided. The orientation of the moon He has placed in the heavens announces our years, months, weeks, then the lunar dates for the whole month. This is the Creator's chosen method for calling His people to His feet for worship at His appointed times in the manner of what He has created.

We each face questions we must truthfully answer.

1. Do I continue to follow a Roman Gregorian calendar believing it is a "*memorial to creation?*"
2. Do I acknowledge Genesis 1:14 as the truth of creation, and "come out of Babylon" as Revelation 18:4 pleads?
3. Begin to further understand the creation account according to Scripture, begin worshipping accordingly, "*as a memorial to creation?*"

[Return to top of page](#)

We Are Instructed To Search the scriptures

Scripture is not similar to that of a child's story. It does not always flow in chronological order, nor by any means, are all the elements of any given topic neatly wrapped in a single chapter. Likewise, Scripture was not written in such a way that gives us all the instructions on keeping our Creators weekly seventh day Sabbaths, in any *single* place. We are instructed to search the scriptures.

John 5:39 states, "**Search the scriptures; for in them ye think ye have eternal life: and they are they which testify of me.**"

Isaiah 28:9-10 "Whom shall he teach knowledge? . . . 10 For *precept must be upon precept, precept upon precept; line upon line, line upon line; here a little, and there a little:*"

It is in the spirit of these principles we are able to move forward in searching for what Scripture reveals.

Scriptures Warning Concerning "Language"

The manner in which any given group conveys it's concerns, feelings, attributes, family ties or any other aspect of their lives, may determine the origins of that group. The same goes for the methods for keeping of time, and language used for calendation in Scripture, versus the methods for keeping of time, and language used for calendation of Rome. Although, each is speaking of "*time*," and "*calendation*," the language and the methods of Scripture versus that of Roman time keeping, are as if both were from two completely different worlds, and indeed, they are. The language of Scripture, the way it has recorded it's hours in a day, days in each month, conveying it's method of time is totally at odds with the same way the world today speaks of time.

There is ***not a single place in Scripture*** that uses the language Rome has **forced** upon the world concerning

time or calendation. This is exactly how "*the world wanders after the beast*," today, [Revelation 13:3](#). Rome is also the **only** entity ever, that has changed both "*times and laws*," just as [Daniel 7:25](#) warns us would take place.

We know every named day of the week, including the names of months in use today are named after pagan Roman planetary gods. Did you know we are told from Scripture not to even mention the names of these "gods" from our lips?

This warning in the context of the seventh day Sabbath:

[Exodus 23:12-13](#), Six days thou shalt do thy work, and **on the seventh day thou shalt rest**: that thine ox and thine ass may rest, and the son of thy handmaid, and the stranger, may be refreshed. And in all things that I have said unto you be circumspect: and **make no mention of the name of other gods, neither let it be heard out of thy mouth.**

Does the author of the Ten Commandments mean what He says?

[Return to top of page](#)

Scripture Speaks Its Own Language Concerning Time and Calendation

[Matthew 27:45](#), "Now from the **sixth hour** there was darkness over all the land unto the **ninth hour**."

[Genesis 8:13](#), "And it came to pass in the **six hundredth and first year**, in the **first month**, the **first day of the month**, the waters were dried up from off the earth."

Whenever *time* or *months* are mentioned in Scripture, it is always **counted from something**, that something is the **new moon**. Scripture never counts from a named pagan day.

In just these two sample verses alone, we can see the language of Scripture is in no way the same as it has been corrupted by Rome over the centuries. This is the **only language used all throughout Scripture**, you will never find mention of any pagan named days throughout its writings.

Why, because the pagan calendar of Rome, which the world wanders after today, is **NOT** in any way, shape or form, the same calendar our Creator has placed in the heavens at creation.

As we demonstrate the falsehoods of the Roman counterfeit system of time, it is our prayer you listen to the voice of the Father. We also will continue to encourage you to not take our word for this, but ask that you are seeking the will of our Creator. Do your own research to find if these things are true or not for yourself. This is the model of the faithful Berean of [Acts 17:11](#).

Examples of Scripture Language as it refers to "Time."

[John 11:9](#), Jesus answered, "**Are there not twelve hours in the day?**"

- [Mark 15:25](#), "And it was the **third hour**, and they crucified him."
- [Mark 15:33](#), "And when the **sixth hour** was come, there was darkness over the whole land until the **ninth hour**."
- [John 4:52](#), "Yesterday at the **seventh hour** the fever left him."
- [John 1:39](#), "They came and saw where he dwelt, and abode with him that day: for it was about the **tenth hour**."
- [Matthew 20:6](#), "**And about the eleventh hour he went out, and found others standing idle, and saith unto them . . .**"

Again, whenever *time* is mentioned in Scripture, it is always counted **from a specific point**, and that specific point has been undeniably **established at creation**, recorded in [Genesis 1:14](#) to be the "*luminaries / lights in the heavens*" by one of the most detailed and accurate authors of Scripture. In addition to Scripture, it is supported by an abundance of historical evidence that clearly demonstrates every month began with a new moon until man began tampering with time. This is the will of the One who has created all things.

Scripture References for Scriptural Watches

In addition to the twelve hours in a day He has declared, the balance of a complete day is made up of the four watches of the night.

- Evening Watch - [Lamentations 2:19](#))
- Midnight or Middle Watch - [Judges 7:19](#))
- Cock-crowing Watch - [Matthew 14:25](#)) [Mark 13:35](#))
- Morning Watch - ([Exodus 14:24](#); [1 Samuel 11:11](#))

[Return to top of page](#)

Saturn As A Memorial To Creation?

Saturday is without question named after the most diabolical pagan god Rome has ever devised, *Saturn*, with its yearly Saturnalia festival. Saturn, therefore known as a Roman pagan god, **cannot** be a *commemoration to creation*, Period.

Again, I ask you to truthfully answer. Is this, can this pagan named day (Saturnalia) in any way, be part of a "*memorial to creation*?"

No! It cannot be, as these two entities, **Saturday and Saturn cannot be separated!**

If the pagan seventh day "Saturday" of Rome is not even mentioned in Scripture, and we are warned to not utter these pagan names from our lips, what is the alternative? It is the moon that was placed in the heavens at creation, by our Creator. Yes, the moon **He created**, that He has preordained to participate in orchestration with the sun, in identifying what so many call, "*a Memorial of Creation.*" In fact, according to [Genesis 1:14](#), it is the counting from the ***new moon*** that every occurrence of days and weeks in Scripture is counted from.

If I am truly seeking to do the will of my Creator, I will seek ***His created beacon, the moon*** to guide me to His feet for worship, each of His seventh day Sabbaths. Are you beginning to truly understand the need, and significance for differentiating between the pagan Roman gods Saturn the world calls "Saturday," versus the method our Creator has placed in the heavens at creation that is found all throughout Scripture.

Astrology Versus Astronomy

At this point, we need to draw a clear distinction between the two. We know without question the moon is a part of creation. Sadly, to many times man has worshiped the created, instead of the Creator, this we are warned against.

Romans 1:25, Who changed the truth of God into a lie, and *worshipped and served the creature more than the Creator*,

The author of this article does not promote, worship, nor does he place in any way, creation, or anything created above the Creator Himself. We do not in any way shape of form, "*read the stars*" for the purpose of fortune telling. We acknowledge the Creator of the heavens and the earth only, and we worship Him alone. Period.

Psalms 97:6-7, The heavens declare his righteousness, and all the people see his glory. 7 Confounded be all they that serve graven images, that boast themselves of idols: worship him, all ye gods.

This makes it perfectly clear that:

1. We are not to worship idols, this includes the moon.
2. The entire world will see the glory of our Creator in the heavens as it declares His righteousness.

This article is about sharing with you the need for restoring worship back to the Creator of the heavens and the earth by revealing the lies of Rome. How and why Rome has removed from the minds of man, the original purpose of the created moon. It was placed in the heavens so that every soul on the face of this earth could, at the same time, see in the heavens and be beckoned to the feet of our Creator at His appointed seventh day Sabbaths.

If one worships by attending church on any single pagan weekday declared by Rome, for example a Saturday, or a Sunday, including any other day of the week, you are not worshipping according to a memorial to creation, but instead by the laws of Rome, and this is who you are pledging your allegiance to. Scripture states the world is wandering after the beast according to [Revelation 13:3](#). You are not worshipping on the seventh day Sabbath according to creation, and therefore **cannot** be worshipping "*as a memorial to creation.*"

[Return to top of page](#)

Looking Closer at the Language

Let us take a closer look at the very first chapter of [Genesis 1:14](#) of creation that tells us the functions of the heavens.

[Genesis 1:14](#), "And God said, Let there be lights in the firmament of the heaven to divide the day from the night; and let them be for signs, and for seasons, and for days, and years"

Who said it?

"God Said"

What did He create?

"Lights in the firmament of the heaven"

Why did He create the "*lights in the firmament of the heaven?*"

"To divide the day from the night"

In addition . . .

let them be for signs,
and for seasons,
and for days,
and years

Did you know days and years are both "*elements of time?*" This is exactly what [Daniel 7:25](#) prophesied **would be changed**. I do believe he hit that right on.

[Isaiah 45:12](#), "I have made the earth, and created man upon it: I, even my hands, have stretched out the heavens, and all their host have I commanded."

[Psalms 97:6](#), "The heavens declare his righteousness, and **all** the people see his glory."

Regardless of what you do, say, or try to ignore, by insisting the Creator's ordained time system was all "done away with on the cross," please, remember this. Just as the sun, moon and stars were ordained at creation with a purpose of measuring time, so also will be their purpose when they are restored in the earth made new. By the same One who created them in the first place.

[Isaiah 66:22-23](#), "For as the new heavens and the new earth, which I will make, shall remain before me, saith the LORD, so shall your seed and your name remain. 23 And it shall come to pass, from one new moon to another, and from one sabbath to another, shall all flesh come to worship before me, saith the LORD."

This is so very important, as we have learned in [Genesis 1:14](#) the luminaries in the heavens were created for a purpose.

Here in [Isaiah 66](#), it is telling us this same moon/method will be restored to beacon those who desire to do His will, in the **earth made new**.

Remember, this article is all about worshiping on the seventh day as *a memorial to creation*. I ask you, is what we just read, not of creation?

[Return to top of page](#)

Looking At This Verse A Bit Closer . .

Our Creator has told us, we live in a broken world caused by sin. He has also promised us, in His time, this world is to be made new again. Given that, let us pick this verse apart and see just what it is telling us.

In [Isaiah 66:22-23](#) we just read all the reasons for which the heavens were created. Now let's break this down some more to further understand it.

When will this take place?

"For as the **new heavens and the new earth**, which I **will** make. . ." (*future tense*)

Who said it?

"Saith **the Lord** (Yahuah). . ."

When?

"It shall come to pass" at the time of the new heavens and the new earth

When again will this "worship" take place?

"from **one new moon to another**."

What other time will this "worship" take place?

"and from **one sabbath to another**."

What will happen in the "New heaven and the New earth?"

"shall **all flesh** come to **worship before me**"

This verse clearly demonstrates in the earth made new, we will once again seek our Creator to give Him perpetual worship on *two types of days*, "New moon days," and "Sabbaths."

Just as a side note.

According to Scripture, are not those two types of day, a "new moon day," a "Sabbath," along with *six work days*, actually **three types of Scriptural days** that occur each month? We will cover this in a later article. But for now, know this, Scripture does **NOT** present an *unbroken continuous weekly cycle* like a string of pearls Rome has the world following today.

You can look high and low for the language of Rome in Scripture, I promise you, you are Not going to find it. Except in [Exodus 23:12-13](#) where we are told to not even utter the pagan names of gods from our lips . . Are the Roman week day names the world wanders after today names of "pagan gods?" Indeed, they are.

[Malachi 3:6](#) tells us, "For I am the LORD, **I change not**." It is not our Creator who has changed His original method of *time*, that has been the doing of man, and for a very specific reason, that is to take worship **from** the One who has created all things.

It is further stated in [Hebrews 4:3-9](#), again in the context of His seventh day Sabbath:

[Hebrews 4:3-9](#), **3** For we which have believed do enter into rest, as he said. . . although the works were finished **from the foundation of the world**. **4** For he spake in a certain place of the seventh day on this wise, And **God did rest the seventh day from all his works**. **5** And in this place again, If they shall enter into my rest. **6** Seeing therefore it remaineth that some must enter therein, and they to whom it was first preached entered not in because of unbelief: **7** Again, **he limiteth a certain day**,

saying in David, To day, after so long a time; as it is said, To day if ye will hear his voice, harden not your hearts. 8 For if Jesus had given them rest, then would he not afterward have spoken of another day. 9 There remaineth therefore a rest to the people of God.

Here again, we are told that, *from the foundation of the world*, meaning at the time this world was created as prescribed in Genesis 1:14, He gave us a specific seventh day Sabbath to give us rest. The word *limiteth* is translated from the Greek word, #3724, meaning to have been *ordained, Limit*. You could say at Mt Sinai, It was **written in stone**.

We know Genesis 1:14 tells us the **luminaries** gives us our **days** and **years**, *from the foundation of the earth*. Can we also say the Roman calendar with it's Saturday, was also "*from the foundation of the earth*." If we can not say the Roman calendar was *from the foundation of the earth*, this leaves only one other choice, that is the *Scriptural account* with the moon and it's phases we get from it's luminaries.

He then further goes on to explain, *IF*, He had given us *another day*, then would He have not told us He had given us *another day*? You see, He never did change His method of calling His people to worship. It was man who changed the method to take worship **from the creator**.

Our Creator, is speaking of His creation account. *From the foundation of the world*, this is **when** He gave us His seventh day Sabbaths, and please notice, **it does not include Rome**.

This is our Creator explaining to us, from His perspective with the knowledge of Daniel 7:25 where He has warned us, somebody is going to change My **times and laws**, it is from this perspective, He explains, **from the foundation of the earth**, the way I had originally setup the luminaries to give man his days and years, *If I*, was going to change My *calendar* and *laws*, don't you think it wouldn't have been prudent of **Me to have told you I was going to make such a sweeping change?**

Genesis 1:14 and Isaiah 66:22-23 both tell us how we are beaconed to His seventh day Sabbaths, and because man has tampered with His original intent, Isaiah 66:22-23 clearly proclaims He will again restore His original intent in the earth made new.

Let's Tie Some Scripture Verses Together

I understand some verses may sound repetitive, but also notice that each time a verse is reiterated, they are tied in with other verses utilizing Scripture principle, here a little, there a little, line upon line, precept upon precept. This we believe is the best way for Scripture to interpret itself.

In the beginning, our Creator hung the luminaries, the lights in the heavens for a very specific purpose.

Genesis 1:14 of the creation account tells us, besides the *signs* and *seasons*, it is the *luminaries in the heavens* that gives us our **days** and **years**.

If one is truly seeking to worship *as a memorial to creation* because of what our Creator has established **at** creation, these verses should grab our attention like nothing has ever in the past!!

It is the light of the sun we see reflected off the moon, giving us the phases of the moon every month, given to us at creation, still in place for every eye to see to this day, that gives us our weekly Sabbaths.

Please know and understand this. What I have just described is of creation. It is only when we utilize this method, can we then truly make the statement, *I worship on the seventh day, as a memorial to creation*. Nothing else fits, Period.

Lets move on

Exodus 20:8 tells us every seventh day is a **Sabbath?**

Just like all text from Scripture, the following examples are also two fold. Please notice the language Scripture uses, as it only *counts* to it's days. also notice the *lack of* Roman language in the form of pagan named days Scripture **does not** use.

Ezekiel 46:1 reveals a *third type of day*.

. . . The east gate shall be shut the **six working days**; but on the **sabbath** it shall be opened, and in the day of the **new moon** it shall be opened.

Remember, **every time** any date is expressed in Scripture, it is **always** counted from the new moon.

Satan has done his best to remove the original method of calendation from the minds of man. As mentioned before, our Creator tells us in Isaiah 66:22-23, He will restore His worship days in the earth made new. His promise to restore His new moon's in the new earth, now a third type of Scriptural day is revealed.

Please understand, if one *attends church on a pagan Roman seventh-day they call Saturday*, they can not say *we worship on the seventh-day, which is a memorial to creation*. This is because these are two completely **contradictory** concepts because the pagan Roman calendar of Pope Gregory or Julius Caesar has nothing to do with creation as the verses we have been reading demonstrate. In fact, just as history reveals, Daniel 7:25 has correctly warned us, it is Rome who has changed time, doing everything in it's power to remove the original Sabbath of creation as beacons by the moon from the minds of man.

Remember,

- Lucifer fell from heaven
- His main desire is to **be worshiped**
- In order to gain worship, he has changed every element of calendation and time.
- It is by **changing time** as established at creation, we miss our appointed seventh day Sabbaths.
- Again, the purpose of this video, to again make our Creators method of calendation known to the world so that His appointed day of worship might be reestablished.
- For more information, please visit SabbathOfTheBible.com

Just as a quick example, how many of us have missed an appointment simply because your clock or wrist watch gave you an incorrect time because for whatever reason, it had stopped? This is the exact tactic Satan is using today on a grand scale. By changing the calendar and clocks of creation, man no longer is able to know the true seventh day Sabbath of creation.

- Scripture clearly demonstrates His calendar of creation.
- Rome changed it to the calendar the world follows today.
- Hence Revelation 13:3, *"the whole world wondered after the beast."*
- It is called the "Gregorian calendar" for a reason.
- Every day and month is named after a pagan Roman god.
- In the heaven made new, His original calendar will be restored.
- Today, I am very excited to share with you, the original heavenly calendar of creation is being restored all around the world as so many are learning of this so vital Scripture truth.
- In the words of a former SDA leader from the Michigan conference, he has correctly stated, *"This message is spreading like wildfire."*

In Revelation 18:4 we are called to *come out of her my people*, this is what we are called to come out of, this is the only thing that has taken place globally when Scripture states in Revelation 13:3, *the whole world wandered after the beast*.

My sheep will hear my voice

John 10:27, **My sheep hear my voice, and I know them, and they follow me.**

Now, I ask you to truthfully answer this question: Do you worship on the seventh-day as a memorial of creation, or, do you still insist on worshipping on a day synchronized, or as some leaders say, ***Are in harmony with the***

Roman calendar? Why would I want to be in *harmony* with the very beast who has taken worship from my Creator?

It is the voice of the Father who is calling, won't you please come out of Babylon today?

Seventh-Day Adventist Are Forgetting Something Concerning Rome

The Seventh-Day Adventist Church holds last day prophecy seminars around the world, *correctly* teaching Rome is the culprit of Daniel 7:25 who has changed the "times and laws" of our Creator.

We can clearly see the 10 Commandments Rome has changed. They removed the 2nd, altered the 4th and doubled the 10th, bringing them back to 10. This just for starters.

But let's re-read the last part of, Daniel 7:25
*and he shall think to change times **and** laws.*

Not only the laws, but two things have changed, the second is the *times of creation*, these have also, **already** been changed by this same beast power, Scripture tells us they would change ***both, times and laws.***

My dear SDA friends, you know it is the same Roman entity whom you correctly preach and teach is the beast power who has changed the 10 Commandments of our Creator. ***Both*** of these changes have **already** taken place, this is evident both Scriptural and historically.

Do Leaders Of The SDA Church Know Of The Lunar Calendar Of Creation?

Yes, of course they do. Here is one of many reasons I will give you, I am sorry, but it is not pretty.

November 7, 1938, a committee was formed to study the subject. Initially called the Advent Research Committee, it consisted of Seventh-day Adventist, well-respected for their theological knowledge. Dr. Leroy Edwin Froom was elected to chair the committee. Dr. Lynn Harper Wood served as secretary. Among the members were Dr. M. L. Andreasen, Professor M. E. Kern, Professor W. Homer Teesdale, Professor Albert W. Werline and Elder F. C. Gilbert.

From papers preserved in the Amadon Collection currently held at Andrews University, it appears that the Research Committee discussed the implications of presenting the Church with the truth of the Scriptural calendar.

[That entire article can be read here.](#)

Scripture clearly presents a ***third type of day*** that differs from the current Roman week. Only two types of days are presented in the Roman calendar today, a *work day* and a *Sabbath*, creating a continuous weekly cycle. This two type of day cycle had been initiated prior too, then later finalized by Constantine. This is the continuous weekly cycle the world wanders after today, Revelation 13:3. The committee must have noticed from Scripture, the monthly cycle restarts with every New Moon. They also noticed what they thought were their Sabbath's appearing to "float" through the modern Gregorian week. Sometimes being on (*pagan named*) Monday; the next month on Tuesday; the month after on Thursday, etc. I believe the committee knew that if they were to adopt the calendar of creation with it's third type of day, it would have alienated the church from the worlds *normal* synchronized ***seven day cycle***. Thus the decision was made in favor of the current Gregorian calendar of Pope Gregory, choosing to not detach, but rather the growing church would cling to that ***which Rome had already forced upon the entire world.***

It was this constant *shift* Andreasen referred to when he made the argument that ***"the truth should be suppressed as the average Seventh-day Adventist would not be able to understand it."***

Although William Miller did not become a Seventh-Day Adventist, he and others that eventually did go on to form the SDA church, did recognize the Hebrew calendar was luni-solar. This knowledge prompted them to pinpoint the Day of Atonement occurring in the seventh month to be the time of the anticipated return of the Savior.

As the S.D.A. Church was formed 20 years later by many of those who had originally participated in the belief that the Savior was to come during the seventh month, on Day of Atonement, they ***discarded*** the *ramifications and importance of* the calendar they had utilized. Instead of the luni-solar calendar, the Seventh-day Adventist church established its seventh-day Sabbath upon the modern Roman calendar . . . In other words, the Seventh-day Adventist church established its church not upon ***"The Rock,"*** but rather chose the *drifting sands* of Roman ***"time."*** To some, this has come to be known as the Seventh-day Adventist ***"Golden Calf."***

That, in addition to the many meetings held to this day ***behind closed doors*** between SDA leaders, and those keeping the Scriptural lunar Sabbaths, these meetings are never revealed to church members for their input on the matter. Sadly this seems to still indicate it is the desire of the church leaders, to keep this most important Scripture topic a ***secret behind closed doors***.

Personally, as a former SDA member, I believe each parishioner of the SDA Church are smarter than M. L. Andreasen gives them credit for. Each person should be given the chance to *hear all the facts from voices on each side, weigh the evidence,* and then be given the opportunity to *make an educated decision for themselves*.

Hence the purpose for this series of articles, to present to the SDA community, that each may know, the seventh day Saturday Sabbath they follow has its origins in *pagan Rome*, versus the seventh day *Sabbath of creation*. The Scriptural day is not labeled with a pagan name, this is because the only way Scripture refers to its seventh day Sabbaths, is to ***count from a new moon***. Yes, this resets its cycle every month, giving the created month three ***types of days***. Each month begins with,

1. ***new moon day,***
2. Four weeks consisting of ***six work days,***
3. Each week ending with a ***seventh day Sabbath.***

Only then will they be able to weigh the evidence and make an educated decision for themselves.

Some Of The Most Dangerous Words One Can Utter

"I will wait and see what my church leaders do."

To the SDA, the words of Ellen White hold great truth and should continually echo in their ears.

She not only knew, but also stated many times the church did not have all the light concerning this so important topic.

"The truth of God is progressive; it is always onward, going from strength to a greater strength, from light to a greater light. We have every reason to believe that the Lord will send us increased truth, for a great work is yet to be done. [Future tense] In our knowledge of truth, there is first a beginning in our understanding of it, then a progression, then completion; first the blade, then the ear, and after that the full corn in the ear. Much has been lost because our ministers and people have concluded that we have had all the truth essential for us as a people; but such a conclusion is erroneous and in harmony with the deceptions of Satan; for truth will be constantly unfolding". Signs of the Times, May 26, 1890 par. 2

Please notice this quote from Ellen White is only thirty-seven years prior to a further rejection of truths by church "leaders."

"What a wonderful work could have been done for the vast company gathered in Battle Creek at the general conference of 1901, if the leaders of our work had taken themselves in hand. But the work that all heaven was waiting to do as soon as men prepared the way was not done; for **the leaders closed and bolted the door against the Spirit's entrance** . . . The doors were barred against the Heavenly Current that would have swept away all evil...They built themselves up in wrong doing, and said to the Spirit of God, '**Go thy way for this time; when I have a more convenient season, I will call for thee.**'" *Letter 123*, August 23, 1902 (Battle Creek Letters, p 55-56).

It is clear to see, Ellen White sees a *serious problem* with any *future truths* coming from church "leaders."

Thus, the message of the third angel will be proclaimed. [*Future tense*] As the time comes for it to be given with *greatest power*, [Again, future tense] the Lord will work through *humble instruments*, leading the minds of those who consecrate themselves to His service. The laborers will be qualified rather by the unction of His Spirit, than **by the training of literary institutions**. {GC 606.2}

In the simplest of terms, Ellen White had very little faith any future truths were going to come from the "leaders of the SDA church." Personally, I believe she knew the church had already begun to be infiltrated by, shall we say, non-believers.

She was correct in stating this as we see for example, the senior pastor Dwight Nelson of one of their most prestige universities telling its parishioners, Allah is the same as our Creator and should be equal.

While I was a church member at a small church in Bauer Michigan, I was elected an elder, treasurer, church clerk, sound tech, bulletin secretary janitor, and much more, I was told on many occasions where Jesuits had already infiltrated the church. It was when I had discovered these truths of the Scriptural Sabbath, was when the church Scripture Porter came to my home to let me know I no longer was needed at Bauer Church.

It appears the SDA church is acting just as the Roman Catholic Church did when it had its Scriptures chained to the pulpits and the parishioners were not allowed to read them. Yes, the SDA church does encourage the reading of Scripture, yet the fact remains, they are keeping this Scripture truth the leaders know of, yet a secret.

I have asked many leaders of the S.D.A. church, "If I am incorrect, would you please demonstrate to me where I am wrong . . ." The responses are numerous and range from:

- "I/we, are not able to refute you concerning this." *Scripture Porter of Bauer*
- "I do not have the time to go into this with you right now . ." *SDA pastor Daniel Mesa of the now California conference.*
- "You may be being led by the spirit, but do you know Satan is a spirit." Author of "*Feast-Keeping and the Faithful*"

I ask this question of the same, "IF, I am a "lost sheep" from an SDA church and I have gone astray, shouldn't the leaders be attempting to bring me back into the flock, if I have gone astray?" The response, except for the author of "*Feast-Keeping and the Faithful*," Silence.

Bottom line is, Yes, they know, they do not want me and or others "influencing their flock."

Datum Points Are Critical

What is a "datum point?" A "datum point" is a point of origin which serves as a reference point, or a base line for the measurement of other quantities. The most important quality of a "datum point" is that it can be "verified" as "absolute," and thus can be used for accurate measurement.

Anyone can randomly count by "*sevens*," and claim a Seventh-day Sabbath. But, it is **only** when your **datum point** has the correct beginning as prescribed by Scripture from the creation account, can one count to the correct, Scriptural, "***seventh day Sabbath of creation.***" Anyone utilizing and counting with a calendar devised

by the hands of the same entity Daniel 7:25 has warned us against, **is not, can not**, be worshiping "*as a memorial of creation.*"

The Creator's "*datum point*" is none other than the New Moon, it is mentioned so many times in Scripture that it begins every new month. It protects the rhythm of the weekly Sabbath. It alone, because of its visibility to all mankind, all around the world, is capable of keeping everyone on earth in sync with the worship rhythms of heaven itself. Yes, this is another article soon to come.

Blessings to those seeking to do His will.
